

Daniel Okafor

■ daniel.okafor@example.com · ■ (555) 562-0193 · ■ Indianapolis, IN

Profile

Biomedical Engineering graduate with hands-on experience in good manufacturing practice, standard operating procedures and MATLAB.

Work History

Manufacturing Science Intern, Crossroads Pharma

May 2025 – Aug 2025

- Followed good manufacturing practice while running cell culture and chromatography steps
- Revised standard operating procedures and led a root cause analysis on filter failures
- Trended yield data in MATLAB and Excel

Lab Technician, Wabash River University

Jan 2024 – Apr 2025

- Prepared media and maintained cell lines for a tissue engineering lab

Education

Wabash River University

Indianapolis, IN

Bachelor of Science, Biomedical Engineering

May 2026

Cumulative GPA 3.31/4.00

Selected Projects

Perfusion Bioreactor Controller

- Built a MATLAB model of oxygen transfer in a perfusion bioreactor

Skills & Certifications

Bioprocess: good manufacturing practice, standard operating procedures, cell culture, chromatography

Languages: MATLAB

Data & ML: Excel

Quality: root cause analysis
