

Daniel Okafor

Get in Touch	■ daniel.okafor@example.com · ■ (555) 562-0193 · ■ Indianapolis, IN
Profile	Biomedical Engineering graduate with hands-on experience in good manufacturing practice, standard operating procedures and MATLAB.
Work History	Manufacturing Science Intern, Crossroads Pharma May 2025 – Aug 2025 - Followed good manufacturing practice while running cell culture and chromatography steps - Revised standard operating procedures and led a root cause analysis on filter failures - Trended yield data in MATLAB and Excel Lab Technician, Wabash River University Jan 2024 – Apr 2025 - Prepared media and maintained cell lines for a tissue engineering lab
Education	Wabash River University Indianapolis, IN Bachelor of Science, Biomedical Engineering May 2026 Cumulative GPA 3.31/4.00
Selected Projects	Perfusion Bioreactor Controller Built a MATLAB model of oxygen transfer in a perfusion bioreactor
Skills & Certifications	Bioprocess: good manufacturing practice, standard operating procedures, cell culture, chromatography Languages: MATLAB Data & ML: Excel Quality: root cause analysis
