

Nia Thompson

Profile

Mechanical Engineering student with hands-on experience in Onshape, finite element analysis and 3D printing.

Work History

Product Design Intern, Kitewing Drones Jun 2025 – Aug 2025

- Modeled drone arms and motor mounts in Onshape and iterated 15 prototypes with 3D printing

- Used finite element analysis to predict crash loads on the frame

Makerspace Technician, Peachtree University Jan 2024 – Present

- Trained 200 students on machining and laser cutting safety

Education

Peachtree University Atlanta, GA

Bachelor of Science, Mechanical Engineering Expected Dec 2026

Cumulative GPA 3.47/4.00

Selected Projects

Automated Plant Waterer

- Built an Arduino-controlled waterer with a Python dashboard
