

Kenji Watanabe

Profile

Aerospace Engineering graduate with hands-on experience in MATLAB, Simulink and CATIA.

Work History

Flight Test Intern, Heartland Aerostructures May 2025 – Aug 2025

- Built LabVIEW data acquisition for wing load tests
- Post-processed strain data in MATLAB and compared it with ANSYS predictions

Undergraduate Researcher, Prairie Wind University Sep 2024 – May 2026

- Modeled a quadrotor control loop in Simulink

Education

Prairie Wind University Wichita, KS
Bachelor of Science, Aerospace Engineering May 2026
Cumulative GPA 3.05/4.00

Selected Projects

Composite Wing Spar

- Designed a carbon spar in CATIA and tested it to failure
