Education

Wabash River Indianapolis,
University s, IN
Bachelor of Science,
Biomedical
Engineering May 2026
Cumulative GPA 3.31/4.00

Skills & Certifications

Bioprocess: good manufacturing practice, standard operating procedures, cell culture, chromatography
Languages: MATLAB
Data & ML: Excel
Quality: root cause analysis

Profile

Biomedical Engineering graduate with hands-on experience in good manufacturing practice, standard operating procedures and MATLAB.

Work History

Manufacturing Science Intern, Crossroads

Pharma

May 2025 – Aug 2025

- Followed good manufacturing practice while running cell culture and chromatography steps
- Revised standard operating procedures and led a root cause analysis on filter failures
- Trended yield data in MATLAB and Excel

Lab Technician, Wabash River University

Jan 2024 – Apr 2025

- Prepared media and maintained cell lines for a tissue engineering lab

Selected Projects

Perfusion Bioreactor Controller

- Built a MATLAB model of oxygen transfer in a perfusion bioreactor
